Re: **Media Release**

There is an on-going investigation by the police, FBI, and the Canadian law enforcement regarding a potential threat to Chelan. A juvenile in Brewster is in custody and another potential suspect is being questioned in Canada regarding this potential threat. We do not have all the particular information on this threat, but it did involve the use of the internet/facebook. The comments being investigated involve the "planning of violence" and a date of "April 20, 2011". The police are continuing their investigation and will keep us updated and informed.

Again, the juvenile in Brewster is under arrest and in custody. We will send out any updates when received. We ask that you share anything with me that may be relevant as well. Thanks.
