## Gun manufacture

**Bang, Bang, Bang, Gush, Uhhhhh! Gun manufacturers are selling guns to anyone they want, and people are dying because of this. I think that gun manufacturers should pay for the damage their guns make. They are making a lot of money, while the community is losing their money on repairing their homes because of the shooting and paying for people's funerals. Gun manufacturers are happy while we are suffering to try to pay the damage the guns have made. I think the gun manufacturers should pay for their damages because it is their duty.**

**It is their responsibility because it is the guns they have made. I think that gun manufacturers should pay for the cost because it is**

**their responsibility for the violence caused by their product. Why should we trust anyone with a gun? I think gun owners need a Gun Safety Certificate, or at least some identification, to get a gun. They should put secret #'s on guns that you can only see with a special light. This is giving money to gun stores & making the community bad.**

**Gun manufacturers are getting rich while we are getting poor because we are paying for the gun related damages. We don't know who are getting guns. They are giving guns to just anyone. They don't care who they give guns to, They**

**are selling guns to the bad guys that are murdering the good guys. This is going to be very bad. Are we all satisfied with this?**

**The gun makers are happy, while we pay their cost of damages. We are starting to see criminals shoot local people of the community everyday. Some community's are saying, "Who's fault is it?" They are willing to the extreme to try to find help. The consequences can be very severe.**

**The gun sellers know it is their responsibility for all the bad stuff that has happened. A few people are satisfied while a lot of people are not a bit satisfied. I think we should call think guilty.**

## No Shooting in Town!

Click, click, boom, boom I got shot with a gun. I think gun manufactures should not be required to compensate states for hand gun violence. Only police officers should have guns. Guns should not be sold because hand gun violence.

They shouldn't make guns because people are getting killed each day somewhere.

Guns have been in existence since 1132. However, we no longer live in the Wild West, therefore they shouldn't sell guns. There is 36% of private insurance that pays for injuries. Hospitals in Michigan were experience finical crisis because of hand gun violence. Guns shouldn't be in town because it is bad for the world. Therefore they should stop making guns for good because people are risking their lives.

They should only use guns for good. Each year 3,500 people die in the army. There were 100,000 people with injuries in the

United States. If a person passes away, insurance has to pay about 37 million dollars. People are trying to stop gun manufactures by paying the gun shops to not sell guns anymore.

If a person gets injured with a gun, insurance should pay. If a person is younger then 24 reached 41 million dollars to buy a gun. Brandy, a football player in Alaska was murdered with a riffle. There were 22,400 each for unintentional shooting. There were 18,400 each gun assault for injuries in the state.

People should make banners to; say, "Stop gun violence for good!" It will make a difference in the world. I will speak to the governor to stop gun violence! If not, I will send this letter to the governor to eliminate hand gun violence.

*IF you are interested in who pays for the damage of guns then read this article.*

## Pay For Gun Related Violence!

Do you think gun manufacturers should pay for gun violence? Well, I do. It takes a lot of money to cure people with gun injuries. Each year people lose a lot of money to gun injuries, and each year a lot of gun injuries occur. In 2004, 5,292 young people ages 10-24 were murdered due to gun related issues.

To start, it takes a lot of money to cure people with gun injuries. In a recent study, the average cost for treating gun related injuries was: \$ 22,400 a piece for unintentional shootings, \$18,400 for gun-assaulted shootings, and \$5,400 for suicides. In a 1997 study direct and indirect medical costs were estimated at \$2.8 million per gun injuries, \$249,000 per hospitalization for gun injuries, and \$73,000 per emergency visits and release for gunshot wounds. Hospitals in Michigan were experiencing financial crisis because of gun related

problems. This is because gunshot victims rarely pay their medical bills.

Furthermore, each year people lose a lot of money to gun injuries. People who have medical insurance may have to pay more money because that money may help pay part of the cost for gun related issues. Taxes are another way people have to pay more money to help pay for the cost of gun related problems. In 1997, Americans lost over 19.456 billion dollars as a result of gun injuries.

Additionally, each year a lot of gun related injuries occur. Gunfire killed 90,000 children and teens in America between 1997 and 2001. In 1998, the state of Michigan suffered a total of 5,453 gunshot injuries. In the U. S., 3,012 children and teens were killed in 2004. That is one child every 3 hours, 8 children every day, and more than 50 children every week dying. In 2004, there were 29, 569 gun

deaths in the U. S.

I think gun manufacturers should pay for gun violence. I think so because it takes a lot of money for hospitals to cure people with gun injuries. Each year people lose a lot of money to gun injuries, and each year a lot of gun related injuries occur. Gun manufacturers should make fewer guns, by doing so we could prevent deaths all over the world.

## Gun Manufactures Shouldn't Pay For the Damage.

Who thinks gun manufacturers shouldn't be liable for the damages of guns? I don't because I think the people who licensed them should be the ones responsible for everything. They are the ones who are giving them permission to use guns. There are lots of good reasons to use guns. Guns are not dangerous, the people using them are.

The people who licensed other people are the ones who should pay all the damages. Sometimes I think the government should only allow the people who have a license to buy guns because that way there would be less damage and less dead people. If the people who licensed other people don't want to pay for all the damages to make them tested before they give them a license.

There are a lots of good reasons to use guns, for example, if the people who licensed other people can't afford food for their family

they can just go out and hunt so they can bring food to eat until they have more money to buy food from the store. Sometimes it is good for police and other people to defend themselves by using guns. That way they wouldn't kill other people. Sometimes they just do it to scare other people away.

Another reason did you know that guns are not dangerous, the people using them are. Sometimes people think we shouldn't use guns because they are made to kill people. Well if you think that about guns you are totally wrong because guns can't shoot by themselves. The people are the ones who are pointing at what they want to shoot and then shoot. It depends on what people are up to. Some people still use guns to kill people or other things, but that does not really mean that they always use guns to

kill things. That does not mean that it was the gun's fault or the seller's fault.

My conclusion is that only the people who licensed other people to have guns should be the ones who need to pay all the damage. If they don't want to pay all the damage, then test them first. I think guns are cool, you can use guns for a lots of good things, especially hunting. First I thought guns were dangerous, but now that I know things about them, I like them. You just need to know more about them and think that guns are not dangerous, the people using them are. If you think gun manufactures shouldn't pay for all the damages then write to the

president so they can change the law. By : Arely Flores

## Disney Land

Clink, clink lets go to Disney Land. Disney Land is a place for vacation. There are a lot of Disney characters like Goofy, Donald, Mickey and Pluto. There are a lot of extreme rides! Also, there is a water park that has a lot of rides in the water. It is awesome! You should really go, I bet it will be the best place you been in your life. There are entertainment and special events. Also there are tours about Disney's haunts and more.

Another thing is that Disney Land has a lot of cool shops. Disney Land was opened July 17, 1995 is the best theme park in the world. Disney Land is opened 365 days a year. They have awesome hotels if

you don't believe me, go to Disney Land and you will see. If you go to Disney Land on the forth of July they explode a lot beautiful fire works. There is no place better than Disney Land. If you are looking for a family vacation, and all the hotels are full Disney Land is your place!

At the beach there are huge waves. The coolest river in Disney Land is Lazy River; you could float and be lazy how long as you want. The Disney White Castle is a big castle, and in it are Disney characters. The scariest legend about Disney Land is that it is fun! In Disney you could take pictures with the Disney characters it is funny. At Disney they have a hot, tub it feels

good.

They have the biggest rollercoaster's when you go up; suddenly you go fast as a cheetah going down. A lot of people go to Disney Land each year. The tickets are pretty expensive; it is worth it because it is fun. Does Disney Land open in winter? In summer is the nicest place to spend in Disney Land.

Disney Land is the best coolest, funniest, place in the universe, because of the beach. Disney Land should be the best trip in the world!

## Disaster Movie

Wow!!! Look at this, a new movie, it's a comedy movie. It is called the Disaster Movie, Warning: this movie may cause explosive diarrhea. This Movies stars are Matt lantern, Ranessa Minillo, Carmen Electra, Kim Kardas Hian, And G- Thang. Their directors are Aaron Seltzer, and Jason Friedburg, this is a movie for anyone that likes comedy violence. You Know, Disaster Movie. What could possibly go wrong! This movie is all about the latest movies turned into comedy. These producers are also famous for making the films called," Meet the Spartans, Epic Movie, Goodie 2

Shoes, and The date Movie. The main characters are Ike Barinholtz, Nicole Parker, & Crista Parker. The setting is impossible to find. This movie has the main idea of funny ways to express new movies. This movie has only one weak point. They are when Hanna Montana gets hit by a meteor and dies. The strongest point is the Hulk & the Panda. I would encourage my friends to watch it because this is a comedy movie. I mean, who doesn't like Comedy. From my opinion I would give this movie an A++.

# Talento De Barrio!!!!!!!!!!!!!!!!!!!!

Oh my gosh! Don't you want to buy Daddy Yankee's new CD? Well, I do because I want to have his poster in my room it is so cool and he is so hot. Another reason

why you should buy this CD is because it is all rap music and it will get you up and dancing he is one of the greatest artists in the whole world. Almost half of his money goes to children's hospitals.

One reason I think you should get this CD because inside the case there is a poster of him. He is so hot! If you would see his poster and all his videos you would probably faint of how hot he is but this information is for girls. What he wears is so hot specially his pants, his shirt, his hat, OH MY GOSH. I would probably keep his poster in

my room in front of my bed so I can see him every night and every day.

Another reason his songs are all rap music so you can get up and dance. His songs are especially for cool people like me. I love to dance and if I would hear one of his songs would probably get up and dance. If you think your grandma is too old for these songs, you are wrong. You have a cool grandma she would even probably get up and dance

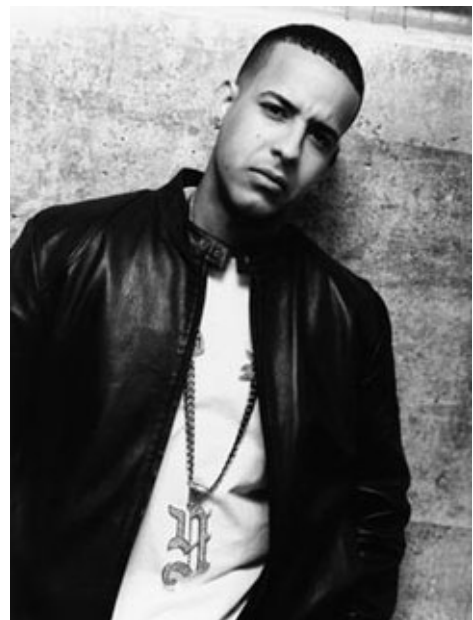

The last reason I think you should buy this CD because all this money goes to him well you are wrong. Almost half of this money goes to children's hospital. Sometimes parents can't afford to pay for their children's sickness that is why he helps pay for those children.

In conclusion, I would totally buy his new CD, "Talento De Barrio"! He has many good reasons to buy his new album. One reason why I would buy his new album is his songs are all rap music. Another reason he helps Children's Hospital. You probably think that I am crazy for him well that is true. I think I am going to stop writing or reading because I am going to put the song "Pose" and start dancing. Well don't forget to tell your parents when you go to the store to buy you the new CD of Daddy Yankee "Talento De Barrio" If they say no then begged them until they buy it.

## The Banksonator

Mrs. Bankson is the special person I interviewed because she is like the coolest teacher I have ever known. She loves chocolate, Johnny Depp, Bruce Springsteen, and she has a evil side.

I asked Mrs. Bankson these questions;

1 "If you had to eat at only one restaurant for the rest of your life which one would you choose?" Mrs. Bankson said that she would choose Chicago Pizza and Oven Grinder. They have the best deap dish pizza in the world.

2 I asked Mrs. Bankson, "If your house were to be haunted by the ghost of one person from history, who would wish it to be?" Mrs. Bankson said Heith Ledger= the joker from the batman.

3 "If you could have any view in the world visible from your bed, what would it be?" Mrs. B said, "I would choose the view of when you're coming on into Hart Lake?"

4 "If you could break one current world sports record, which

one would it be?" She

Said the 100 meter freestyle,

that's swimming?"

5 "If you could completely remove one person vocal cords, who would you choose?" Mrs. B said, the mean, evil, villain called the George Burger face Bush.

6 This is the worst one ever, "If you had to repeat the worst thing you ever said to your mother, what it was?" She said, "The worst thing I ever said was **shut up!** I never said it again.

7 This is nice, "If you could cancel one day of the week, which day would you choose? Why?" Mrs. B said, "Monday because you are tired of the weekend.

8 If you could do any job in the world, what would it be?" I agree that it should be a cowboy/cowgirl out in the range for the whole day; you get to ride horses for the whole day.

9 "If you had to name the one thing you worry about most regarding high school, what would it be?" "I will tell you that Mrs. B said it would be being accepted by your friends."

10 "If you were stranded on a desert island and could only have one

music album to listen to, what would it be?" She remarkably said, " Bruce Springsteen, The rising?"

11 "If you could ensure that one existing law would never again be broken, which law would you choose?" Mrs. B said that it would be **Child abuse.**

12 "If you could only keep one of your 5 senses, which would you choose?"

She said, "Sight, to see her sons."
