

CMS TARGET & ENRICHMENT AFTERS

**Get Ready! You've just entered the Afters Zone
at Chelan Middle School!**

The TARGET Afters is entering 2010 at full speed. The attendance for the academic afters has been outstanding. We are excited about the amount of kids involved and the progress they are making. In TARGET, not only do students in 6th, 7th, & 8th grade receive homework help, but they have the opportunity to play math games and do projects that solidify the concepts they are currently learning in the daily math classroom. The CMS teachers are working directly with the Afters staff to ensure the curriculum aligns with daily teaching and homework. Students get the help they need while strengthening much needed math skills and vocabulary.

In early February we will begin our winter session of Afters Enrichment. Classes include pottery, photography, yoga, cooking, on-line publishing and quilting. Phew! That's quite a line up.

Between the middle school play, girls basketball, wrestling and the Afters program, more students than ever are staying after school. Jump on board.....it's where the kids are!!

For more information or to volunteer in the program, please contact Terrie Carleton, MS Afters Coordinator, at 682-4073 ext. 134.
