

# TARGET & ENRICHMENT AFTERS

**Get Ready! You've just entered the Afters Zone at Chelan Middle School!**

## Highly Capable Program Notification – WAC 392-170-042

Opportunities for kids just keep coming at Chelan Middle School. Now, in addition to academic and enrichment Afters, the Chelan School District has obtained a grant to be used for the enrichment of high academic performers at the middle school level. This grant is from the State of Washington and mandates that services be limited to the top 2% to 3%. This means 3 or 4 students per grade level. According to the grant, students must show top performance in reading and math for participation in this program.

Programming ideas for the remainder of this school year include a technology clinic, after school or weekend application in May and a multi-day camp experience in early summer.

Students are identified through academic performance and a cognitive and creative assessment process. NWEA test scores are used to determine the highest academic achievement. During the remainder of this school year, if other students are identified as the top 2%, we will add them to the program. Parents, students, teachers and community members are invited to nominate students to be considered for entry into the program. You may pick up a nomination form at the middle school or the District Office.

We are excited about adding this program to the all ready outstanding educational offerings at Chelan Middle School.

If you have comments or questions, or would like to make a referral, please contact me.
